Stefan Diez - CHASSIS Chair (for Schellmann) 2013

Stefan Diez, Munich (born in 1971), presents a meeting and working place consisting of a newly developed table and a handcrafted modification of CHASSIS, a chair industrially produced by Wilkhahn. In a post-production process, the chair was modified by galvanizing the frame and fitting it with leather upholstery; it is now being produced as a model of its own, the CHASSIS Chair (for Schellmann).
